Education

2021 – 2026 (Expected)

Ph.D. in Computer Science. University of Wisconsin-Madison. Advised by Prof. Frederic Sala.

2016 - 2020

B.S. in Computer Science. National Chengchi University. Advised by Prof. Man-Kwan Shan and Dr. Ling-Jyh Chen. Major GPA: 3.96

Research Interests

My research focuses on *data-centric AI for multimodal models*, enabling models to learn more with less supervision. Several works I have worked on, including (i) online data mixing for multimodal models in dense captioning tasks, (ii) fine-grained data selection for efficient pretraining (e.g., training CLIP on 100+ million samples), (iii) data curation using ensemble and objective detection (1st place on the DataComp'23 leaderboard), (iv) a 500x cheaper auto-labeling system over LLM annotators (NeurIPS'24 Spotlight), and (v) a new accelerated training framework via model merging.
